

Broads Authority  
PIPS opportunity

**Two projects in the Broads Protected Landscape**

## **What we are looking for in a PIPS candidate**

- Analytical and investigative skills, drawing on information from a range of sources
- Ability to summarise complex information for non-technical audiences
- Statistical analysis of environmental data
- Report writing for a range of audiences
- Forward planning and self-organisation
- Ability to communicate well and ask the right questions to help overcome issues

## PIPS opportunity 2021 – Project 1

[CANAPE: Five months of change at Hickling Broad, Interreg VB North Sea Region Programme](#)

# Wetland Farming – for nature and carbon

Assessing carbon stocks within the peat of the Broads National Park

January 2021

## Priority themes

- Wetlands filtering and cleaning polluted water
- Ecological drivers of wetland plant growth (salinity, water table, grazing)
- Reducing GHG emissions from land drainage in the Broads
- Carbon sequestration in wetlands – one of the UK's only carbon farms

Broads Authority

PIPS opportunity 2021 – Project 2

[Paludiculture, Interreg VB North Sea Region Programme](#)

# Using environmental monitoring to inform sustainable management in a protected landscape

## Priority themes

- Ecological drivers of *Prymnesium parvum* populations, an algae potentially toxic to fish
- Reducing GHG emissions from waterways management activities in the Broads
- Blue carbon and carbon sequestration in wetlands – Broads as sink or source?
